

# • ENTER THE NAVAL INSTITUTE'S • NAVAL INTELLIGENCE ESSAY CONTEST

## THE CHALLENGE

In “A Design for Maintaining Maritime Superiority 2.0,” the Chief of Naval Operations identifies four major lines of effort (LOEs) to guide the Navy’s long-range strategy:

- Strengthen Naval Power at and from the Sea
- Achieve High-Velocity Outcomes
- Strengthen Our Navy Team for the Future
- Expand and Strengthen Our Network of Partners

This year’s contest invites authors to explore what Naval Intelligence and Information Warfare should do or prioritize in the current strategic environment to achieve the high-velocity outcomes across the LOEs called for in the CNO’s “Design.”

Note: Your essay must be original and not been previously published (online or in print) or being considered for publication elsewhere.
